

Tahoe

Pontoons and Fishing Boats

by
PLAYBUOY

1997

The feeling of freedom.

Quality goes into every boat we make!

Tahoe Quality

Wall Material

Baked-on enamel finish will not deteriorate. Ribbed for strength and locked into the wall railing.

Motor Pod

.090" thickness with integrated splash fin. 2" thick aluminum sheathed transom is fully welded not bolted. The entire pod is supported by five crossbeams.

3/4" Flooring

The thickest and heaviest flooring used in the industry. This state-of-the-art, injection treated, 7-ply, marine flooring features a lifetime limited warranty.

Riser

Extra thick riser with flared edges provide the best possible connection to floor and tube. Back welded for extra strength and neatness.

Pontoon Tube

.080" thickness H5052 aircraft aluminum alloy. Multi-baffled near each weld for maximum strength and air lock. Hand-welded to rigid standards. Neatest welds in the industry.

Rub-Rail

All anodized for lasting beauty. Bolted for maximum strength.

U-Bar

Exclusive double U-Bar construction. 1/4" thick U-Bars are strategically placed at the very front of the deck for impact resistance and at the motor pod to eliminate motor flex.

Aluminum Seat Frames

Clearly superior. Will last a lifetime. Won't deteriorate like wood. Won't crack or hold water like plastic. Provides the largest under seat storage.

Seat Fabric

The strongest and easiest to clean. Super-Life™ Vinyl has a 12 mill top layer with a 24 oz. over-all weight.

Treated with UV inhibitor and bioguard to resist fade and mildew. Three year limited warranty.

Aqua-Loc Bolt™ System

The Aqua-Loc Bolt™ is a combination of a large corrosion resistant bolt, a drill bit and a tap. The Aqua-Loc Bolt™ self taps directly through the deck and crossbeam to lock them together. Unlike normal bolt systems, no space is left for moisture to accumulate which can cause rot or freezing.

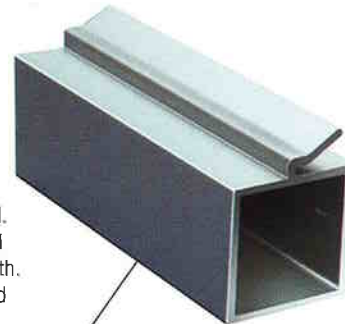

Multi Density Seat Cushions

The perfect comfort level is achieved by combining different densities of foam. Unlike other manufacturers, we produce our own furniture right at our plant.

Wall Railing

Extremely strong T-5 tempered. Our boats feature more vertical supports for even more strength. Anodized for lasting beauty and corrosion resistance.

Carpet

Heavy duty 16 oz. UV protected. Three year limited warranty. Unlike some others, the carpet is run the full length and width of the boat and attached on 100% of the surface.

Nose Cone

The absolute strongest in the industry. The one-piece construction makes it virtually impossible to break off a splash fin. The double wrapped leading edge provides maximum impact protection. The entire cone is tapered and inserted in the tube for even more strength.

Z-Bars

.125" thick all aluminum heavy duty crossbars are bolted to the pontoons with stainless steel bolts, nuts and washers for outstanding support.

Ask your dealer about Mercury, Mariner and Force Outboard packages with your boat and trailer.

20 ft.

Only Grand Tahoe gives you everything you want. A rich, luxurious interior, deluxe California style control center with wood grain dash, fabulous mural graphics and more standard features than any other in its' class.

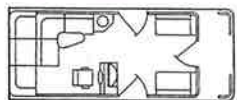

Rest assured knowing your Grand Tahoe was constructed to rigid standards to make sure you enjoy many years of beautiful sunsets.
