Motor Pod

.125" thickness with integrated splash fin. 2" thick aluminum sheathed transom is fully welded-not bolted. The entire pod is supported by five crossbeams.

Hat Stringers

Four times stronger! These heavy duty 1/4" thick bars provide the extra strength needed for today's heavier motors.

5 Year Acrylic Bimini Top

Aluminum Seat Frames and Kick Panels

Clearly superior. Lifetime Warranty. Aluminum seat frames won't rot like wood. Won't crack or hold water like plastic. Extra large compartments provide the largest under seat storage.

Seat Fabric

The strongest and easiest to clean. Super-Life™ Vinyl has a 12 mil top layer with a 33 oz. overall weight. Treated with UV inhibitor and Bioguard to resist fade and mildew. Three year limited warranty.

Pontoon Tube

.080" thickness H5052 aircraft aluminum alloy. Multi-baffled near each weld for maximum strength and air lock. Hand-welded to rigid standards. Neatest welds in the industry. Available in standard 22", 23", 24" & 27" diameter.

Full Riser

All pontoons are connected to the frame with full risers. Full risers are beautiful, provide continuous strength along the pontoon, and provide better performance by keeping the water from rolling over the pontoon.

Wall Skins

Heavy duty wall skins feature the Silencer Strip™ on all edges for the quietest walls. Wall skins are strip locked into the horizontal and vertical supports, then braced. The result is the most durable, quiet wall available!

Heavy Duty Rub-Rail

All anodized for lasting beauty. Bolted for maximum strength. Features new "L" ridge at the bottom for superior strength.

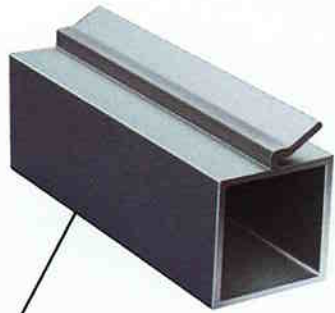

Side Keel Protection

Special welded side keels protect against damage from side impact.

Stainless Steel Cleat

Playbuoy Quality

Wall Railing

The best in the business! 1.25" across and .090" thickness horizontal and vertical rails. Playbuoy features more vertical support rails than any other. All rails are completely anodized for lasting beauty and corrosion prevention.

Multi Density Seat Cushions

The perfect comfort level is achieved by combining different densities of foam. Unlike other manufacturers, we produce our own furniture right at our plant.

Floor Drains

Floor drains will allow water to quickly drain out, but won't let rainwater and dirt in under the rails when the boat has its mooring cover on.

U-Bar

Exclusive 1.25" thick U-Bar is strategically placed at the very front of the deck for impact resistance.

Bow Eye

Reinforced stainless bow eye provides excellent strength for haulout.

3/4" Flooring

The thickest and heaviest flooring used in the industry. This state-of-the-art, injection treated, 7-ply, marine flooring features a lifetime limited warranty.

Nose Cone

The absolute strongest in the industry. The one-piece construction makes it virtually impossible to break off a splash fin. The double wrapped leading edge provides maximum impact protection. The entire cone is tapered and inserted in the tube for even more strength.

Challenger 20'

The Challenger is clearly the quality and comfort leader today and in the future. It's exciting radius front walls, deep and precision designed seating, as well as its rear entry gate make the Challenger the all around favorite for your family. Not only is the Challenger a beautiful and comfortable boat, it's one tough built boat. Heavy-duty 1 1/4" wall railings, 24" diameter pontoons, all aluminum seat frames, and a warranted acrylic Bimini top are just a few of the high quality standard features. And it doesn't end there. You also get a cooler, dock lights, and a fiberglass helmstand including Gold Bezel instrumentation and stereo. Challenger is the exciting new tradition for the new millennium.
