Pontoons®

Special Edition Series

The traditional high quality Tahoe pontoon design is available to you as the nation's most popular specially priced package of features and quality! This Great Family pontoon boat is designed to offer more value than any other pontoon line in the U.S.A!

Tahoe Special Edition models feature superior construction, including features like aluminum frame seating, unbreakable nose cone fins, and .090 wall railings that are simply not found on most competitive models.

Vista and Blue Ridge Special Edition models feature this quality construction bundled with a long list of standard features, (normally optional on most competitive models), to create the most beautiful, well equipped, and affordable pontoon boat you can own.

If you want high quality in a more basic, even more affordable Special Edition, we offer that, too. Choose a well built, no frills, full size Cascade or a 7' wide Sport model. These fully furnished models provide you with a quality boat that you can customize to your own needs.

All SE models are available with many standard pleasure or fishing interiors.

So, take advantage of the tremendous value offered in the Special Edition series. You will experience years of enjoyment on your new Tahoe pontoon boat.

High Performance Rules!

Get A Pontoon With An Attitude!

High Performance Pontoons

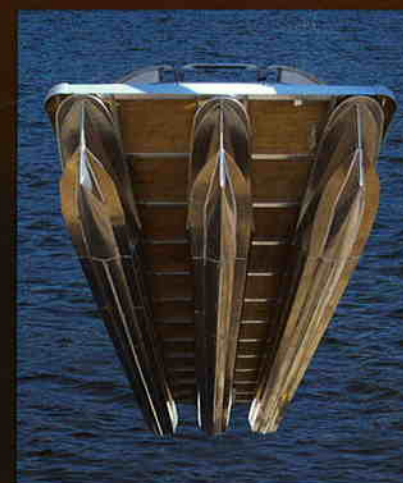

Lay the throttle down and make your High Performance Pontoons turn your boat into a faster, more versatile family boat. When you equip your boat with the Center Tube System (CTS) and the High Performance Pontoons (HPP) you get a setup uniquely designed to give your boat performance on demand. Your roomy CTS/HPP equipped pontoon can be the versatile watercraft that everyone can agree on. There's no need to compromise, a CTS/HPP equipped model allows you to pull skiers, inner tubes and wakeboards with ease*, but at lower speeds CTS/HPP does not affect your boat's ability to maintain the luxurious pontoon ride you expect.

If you simply need more buoyancy and HP capacity you can equip your boat with the CTS/HPP only.

CTS and CTS/HPP are only available as a factory installed option, CTS/HPP works best on 20' and longer models equipped with 90 HP and above.

Optional hydraulic steering is recommended for 115 HP and larger.

*When equipped with adequate Horsepower
