PONTOON BOATS

2009

## Fun & Excitement

Tahoe pontoon boats are exciting, high quality, affordable pontoon boats built to create family memories for years. Choose from a great selection of models for cruising, fishing, skiing, and high speed running. You will get more than you expected from a Tahoe pontoon, and get a company that provides more quality and service than you are used to.

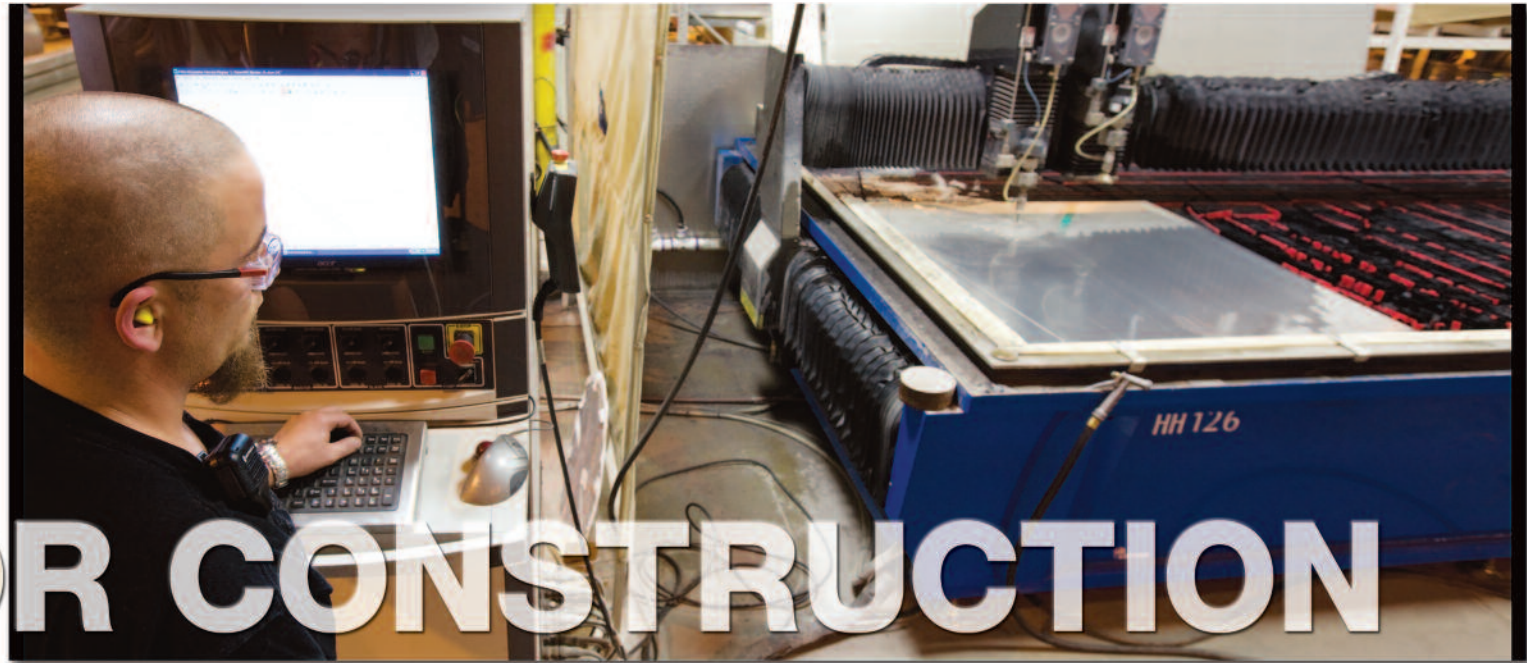

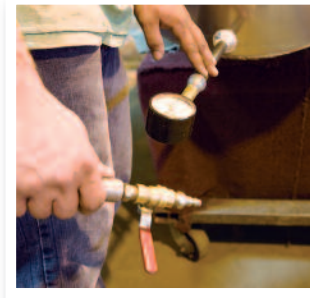

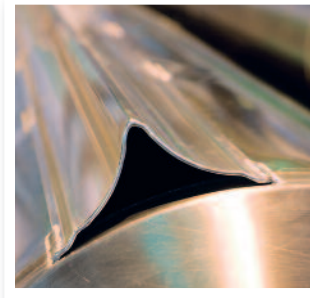

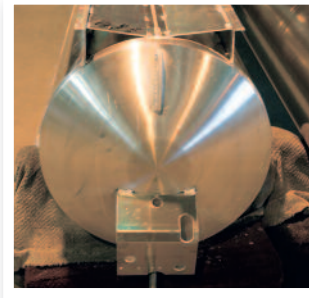

# Tahoe

## PONTOON BOATS

Aspen 22' Elite

Tahoe's superior customer satisfaction is recognized by the **NMMA CSI AWARD!**

# SUPERIOR CONSTRUCTION

The latest technology, the finest materials and the best people create Tahoe Pontoons. The finest U.S.A. made pontoon boat. Tahoe is a vertically integrated builder. We manufacture the pontoons, framing, furniture, covers and more right in our own production facility. So, unlike our competitors who outsource most components, we are able to achieve and control the highest degree of quality.

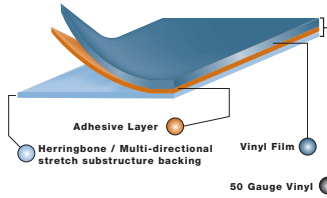

Investment in the latest equipment has allowed us to produce the highest quality pontoon on the market. New technology such as our water jet cutter provides a smoother finish and more accurate dimensions. Our computer driven Gerber fabric cutters create exacting furniture patterns for excellent fit and finish. Electronic saws make sure all aluminum is cut to precise dimensions. The latest in welding technology gives your boat the superior finish you expect.

Because Tahoe pontoons are constructed from the purest marine aluminum available, they have a beautiful finish from the start. An extra step such as etching that is added to lesser quality metal is not required. We use heavier pontoon connections, more stainless steel components and heavier duty motor pods, so your boat will last for years. Tahoe's exclusive MATRIX 50 vinyl is the heaviest, strongest, most mildew resistant and easiest to clean marine vinyl ever.

Our number one investment, however, is our people. Tahoe's team of highly experienced welders, furniture makers and assemblers descend from generations of Midwestern craftsmen that have been instrumental in the building of America. Our headquarters based customer service people will make sure your experience is exceptional.

Tahoe is rated as having one of the lowest incidents of warranty claims in the industry and has also won the 2008 NMMA CSI Award for outstanding customer service.

## Tahoe Pontoons offer these exclusive heavy duty construction features

- Tahoe's exclusive MATRIX 50 heavy duty 50 gauge marine seat covering with a 24% substructure is tested strongest against tears, punctures, and stains.
- New Herringbone multi-directional stretch backing promotes quicker recovery.
- Greater stitch strength.

### Exclusive! Aluminum seat frames and kick panels

Clearly superior. Lifetime warranty. Aluminum seat frames are stronger, have extra large compartments for maximum storage capacity and have "Flo thru™" ventilation from the outside. "Flo thru™" allows your equipment to dry out, even while the cover is on and keeps the entire compartment drier so mildew or fungus is less likely to develop. Aluminum frames won't crack or hold water like plastic, either!

### Heavy duty nose cone with our industry first integrated nose cone splash fins!

The absolute strongest in the industry. The .110" thickness and one-piece construction makes it virtually impossible to break off a splash fin. The double wrapped leading edge provides maximum impact protection.

### Stronger! Double full pontoon connectors

Most models feature full riser pontoon connections inside and outside. Unlike our competitor's "small but skirted" riser connectors. Full risers provide continuous strength along the entire pontoon.

### Exclusive! L Series side keel protection

Special welded keels protect against damage from side impact. They also provide better performance as they limit the flow of water around the pontoon.

### Interior drain

Tahoe now exclusively has a drain in the corner of the rear bench where water that would collect from rain during storage is expelled through a drain channel and off the boat. This significantly reduces the potential for stains that develop in the corners over time.

### Double vented gas fill

Only Tahoe has solved the issue of fuel fill splash back and slowness. Tahoe's exclusive double fuel vent allows pressure to escape so you can fill quickly with almost no splash back.

### Reflective safety striping

Tahoe adds an additional level of night safety with striping that can be seen from a distance when exposed to light.

### Industry's strongest double bolted motor pod assembly

.190" thickness with integrated splash fins. 2" thick aluminum sheathed transom is fully welded. The entire pod is double bolted with at least 16 - 3/8" bolts and supported by more heavy-duty "C" channels crossbeams than any other pontoon boat.

### Superior quality pontoon tube

.090" thickness H5052 marine aluminum alloy. Multi-baffled near each weld for maximum strength and air lock. Hand-welded to rigid standards.

### The best crossbeam and deck construction

Tahoe "L" Series pontoon boats feature the latest in heavy-duty hull construction. 3" high, extreme thickness "C" channel crossbeams are bolted to

the full riser with heavy-duty stainless bolts, nuts, and washers. Then 3/4", pressure injected, lifetime guaranteed flooring is bolted to the crossbeams using superior grade stainless steel bolts secured permanently with stainless nylock lock nuts and washers.

### Strongest bow eye

Our standard equipment stainless bow eye is connected across three crossbeams with a 1/4" aluminum reinforcement strap. Excellent strength for haul-out.

### Wall joints

Wall joints welded on all four sides for extra strength.

## Let's start at the top.

Grand Tahoe exhibits the quality of all fine items that are forged by craftsman to create luxury and strength. Constructed using the industry's strongest pontoon hull as its foundation, Grand Tahoe is the most exquisite pontoon boat available today. Grand Tahoe's unique design features sweeping radial fore and aft walls and a radial deck that encompasses a fabulous, luxuriously appointed interior featuring designer furnishings and an almost endless list of standard features. It's simply the finest pontoon ever created.

## The luxury and class of the lake.

This beautiful top of the line luxury pontoon boat exhibits a magnificent blend of form and function. The modern radius styling and plush furnishings sit atop the industry's strongest pontoon hull. Classic Series construction provides strength while Sierra's long list of standard features including MATRIX 50 seat coverings, a classy wine rack, Tahoe's custom designed "Comfort-Plush" reclining admiral's chair and a Garmin color GPS provide an unmatched boating environment.

PONTOON BOATS

A sporty attitude, just like yours.

Aspen is excitement and luxury in a feature-packed, traditional pontoon design. The heavy-duty 8-1/2' width provides an enormous amount of interior space - which we've filled with designer furnishings and an almost endless list of standard features.

## Raise your Flag!

Tahoe's Sandbar model is the ultimate party platform. Park at your favorite beach or sandbar and use the entire boat from end to end for swimming, partying, listening to tunes, lounging and enjoying refreshments.

When you're done with that, crank her up and charge across the water on the standard Waveglider™ high performance pontoons for skiing, tubing or just enjoying the warm breeze.

# WAVEGLIDER™ HIGH PERFORMANCE EXCLUSIVE 5x7 PACKAGE

Waveglider™ with Aluminum Waveshield  
Front Back

Take it to the next level by equipping your craft with the Tahoe Waveglider 5x7 High Performance Package. For O/B models it includes two 25" diameter Waveglider pontoons and one 27" diameter Waveglider center pontoon, 42 gallon tank in center tube (exchange for standard tank), aluminum underskin, an upgrade to Sea Star hydraulic steering, electric power assist steering and an O/B Ski tow bar. Or choose any of the options individually for your own custom setup. I/O models are already equipped with a center pontoon, the 42 gallon tank in the center pontoon, aluminum underskin and Sea Star hydraulic steering, so just add the high performance fins, a 27" center pontoon and power steering to go 5x7!

**WATERSKI/WAKEBOARD TOWER** *Tow like a pro!*  
Enjoy all types of watersports with the optional tower. The elevated ski tow keeps the rope out of the water so you can pull the most demanding wakeboarder or skier.

Optional in floor ski storage  
(Available on CTS only)

Proven Performance and Durability!

Tahoe has tested our high performance systems on trips from Baltimore to Key West, across Lake Michigan and from Ft. Lauderdale to Bimini in the Bahamas so that you can be assured of one tough, high performance boat. So go ahead and turn your boat into the fast planing sport boat you want. It will be a blast to drive, a great all around family boat and perfect for pulling skiers, tubes and wakeboards.\*

- CTS ONLY- (Center pontoon without Waveglider fins)
- Waveglider™ system - Includes CTS 25" triple pontoons and Tahoe's exclusive Waveglider - high performance lifting fins and 42 gallon fuel tank for center pontoon
- Watersports package - includes Waveglider™ system - plus: ski tow bar and aluminum waveshield
- 5 x 7 Waveglider™ High Performance Package = 2 - 25" outside pontoons, 1 - 27" inside pontoon, Waveglider fins, Sea Star and power assist steering, aluminum waveshield, 42 gallon center fuel tank and ski tow bar

\*When powered with adequate horsepower.

# Tahoe HIGH PERFORMANCE OPTIONS

1. Add power assist steering to give your boat even better handling and turning capability.
2. In floor ski locker\*
3. 42 gallon fuel tank\*
4. Aluminum waveshield
5. Ski tow bar
6. Waterski/wakeboard tower

### TOWER OPTIONS

- a. High power speakers with microphone
- b. Spotlight
- c. Wakeboard racks

**HIGH PERFORMANCE OPTIONS ARE AVAILABLE FACTORY INSTALLED ONLY!**

*\*Only available with center pontoon*

## Fishing in Comfort.

The SE-B is the fishing evolution of the popular Blue Ridge model. Choose from five fully loaded fishing models featuring livewells, comfortable fishing chairs, and a Garmin fishfinder graph. Most models include a built in tackle box, rod holders and a rod storage box too. With all of the different fishing layouts available in the SE-B, it should be easy to find the fishing set-up that's just right for your family.

A full-sized cruiser with a compact price.

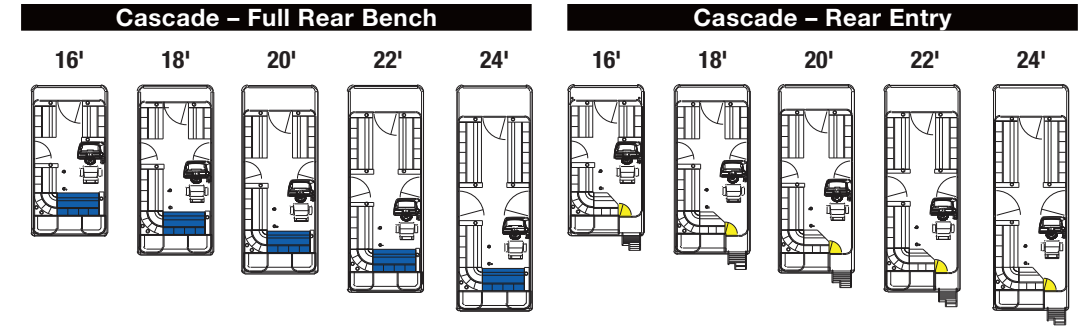

Even though Cascade is Tahoe's most affordable full size model, it sure doesn't look like it. A great way to start boating with high quality and less investment, the Cascade won't disappoint. Cascade is built with quality that goes into every Tahoe. Solid structure, plush MATRIX 50 seating, CD stereo and gauges provides the right amount of features for years of fun on the water.
