

AVALON 2011 LUXURY PONTOON BOATS

# 2011 Avalon

AVALON LUXURY

PONTOON BOATS

LUXURY & STRENGTH.

Our total commitment to making the finest pontoon boats in the world has brought you the exciting Avalon Pontoons. These luxurious boats are a beautiful composition of the finest elements known to pontoon boating, along with over 40 years of pontoon boat manufacturing experience. The finest construction, the most

luxurious designs and the largest group of unique standard features create a distinctly different and clearly superior pontoon boat that will exceed your expectations.

Avalon is a vertically integrated builder. We manufacture the pontoons, framing, furniture, covers and more right in our own production facility using the latest computer driven equipment such as our Water Jet cutter, Gerber fabric cutter, Tiger saws and the latest in welding technology. As a result we are able to achieve and control the highest degree of quality.

Our number one investment, however, is our people. Avalon's team of highly experienced welders, furniture makers and assemblers descend from generations of Midwestern craftsmen that have been instrumental in the building of America. Our headquarters based customer service people will make sure your experience is exceptional.

Avalon is rated as having one of the lowest incidents of warranty claims in the industry and has also won the 2008, 2009 and 2010 NMMA CSI Award for outstanding customer service.

# SUPERIOR CONSTRUCTION

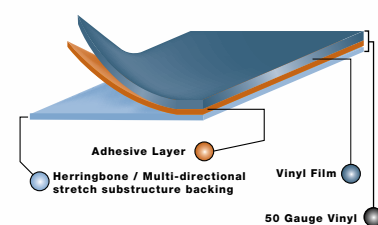

**FIVE YEAR BOW TO STERN LIMITED WARRANTY PLUS LIMITED LIFETIME FLOORING, PONTOON WELD AND SEAT FRAME WARRANTY.**

## AVALON PONTOONS OFFERS THESE EXCLUSIVE HEAVY DUTY CONSTRUCTION FEATURES

- Avalon's exclusive MATRIX 50 heavy duty 50 gauge marine seat covering with a 24% substructure is tested strongest against tears, punctures and stains.
- New Herringbone multi-directional stretch backing promotes quicker recovery.
- Greater stitch strength.

**Exclusive! Aluminum seat frames and kick panels**  
Clearly superior. Lifetime warranty. Aluminum seat frames are stronger, have extra large compartments for

maximum storage capacity and have "Flo thru™" ventilation from the outside. "Flo thru™" allows your equipment to dry out, even while the cover is on and keeps the entire compartment drier so mildew or fungus is less likely to develop. Aluminum frames won't crack or hold water like plastic, either!

**Heavy duty nose cone with our industry-first integrated nose cone splash fins!**  
The absolute strongest in the industry. The .100" thickness and one-piece

construction makes it virtually impossible to break off a splash fin. The double wrapped leading edge provides maximum impact protection.

**Stronger! Double full pontoon connectors**  
Most models feature full riser pontoon connections inside and outside. Unlike our competitor's "small but skirted" riser connectors. Full risers provide continuous strength along the entire pontoon.

**Exclusive! Deco Series side keel protection**  
Special welded keels protect against damage from side impact. They also provide better performance as they limit the flow of water around the pontoon.

**Interior drain**  
Avalon now exclusively has a drain in the corner of the rear bench where water that would collect from rain during storage is expelled through a drain channel and off the boat. This significantly

reduces the potential for stains that develop in the corners over time.

**Double vented gas fill**  
Only Avalon has solved the issue of fuel fill splash back and slowness. Avalon's exclusive double fuel vent allows pressure to escape so you can fill quickly with almost no splash back.

**Reflective safety striping**  
Avalon adds an additional level of night safety with striping that can be seen from a distance when exposed to light.

**Industry's strongest double bolted motor pod assembly**  
.190" thickness with integrated splash fins. 2" thick aluminum sheathed transom is fully welded. The entire pod is double bolted with at least 16 3/8" bolts and supported by more heavy-duty "C" channels crossbeams than any other pontoon boat.

**Superior quality pontoon tube**  
.090" thickness H5052 marine aluminum alloy. Multi-baffled near each weld for maximum

strength and air lock. Hand-welded to rigid standards.

**The best crossbeam and deck construction**  
Avalon "Deco" Series pontoon boats feature the latest in heavy-duty hull construction. 3" high, extreme thickness "C" channel crossbeams are bolted to the full riser with heavy-duty stainless bolts, nuts and washers. Then 3/4", pressure injected, lifetime guaranteed flooring is bolted to the crossbeams using superior grade stainless steel bolts

secured permanently with stainless nylock lock nuts and washers.

**Strongest bow eye**  
Our standard equipment stainless bow eye is connected across three crossbeams with a 1/4" aluminum reinforcement strap. Excellent strength for haul-out.

**Wall joints**  
Wall joints welded on all four sides for extra strength.

## RAISE YOUR FLAG!

Avalon's Sandbar model is the ultimate party platform. Park at your favorite beach or sandbar and use the entire boat from end to end for swimming, partying, listening to tunes, lounging and enjoying refreshments. When you're done with that, crank her up and charge across the water on the standard Waveglider™ high performance pontoons for skiing, tubing or just enjoying the warm breeze.

### INBOARD/OUTBOARD FEATURES

Bravo 3 dual prop outdrive

Corsa through hull exhaust

Power Assist Steering

Aluminum Waveshield

Optional Inboard/Outboard fiberglass full width rear swim platform

Some models shown with optional equipment.

## I/O OPTIONS – WATERSPORTS & PERFORMANCE OPTIONS

### TOWER OPTIONS

- High power speakers with microphone
- Spotlight
- Tower racks (four pieces – two sides)

**In Floor Storage Compartment** – factory installed only in center pontoon models

**Power Assist Steering** – Add power assist steering to give your boat even better handling and turning capability – requires upgrade to Sea Star Hydraulic steering

*High performance options are available factory installed only!*

### PERFORMANCE OPTIONS

**Rough Water Package**

(factory installed only for Waveglider™ and 5 X 7) – suggested when boat is going to be consistently exposed to very rough water. Adds extra welding and extreme duty riser components

**Aluminum Waveshield**

(factory installed only) – prevents water from hitting crossbeams and under side of deck while underway

### WATERSPORTS OPTIONS

**Ski Tow Bar** – allows convenient towing for skiers and tubes

**Waterski/Wakeboard Tower** – 8.5' wide only (Includes SS Bimini top) provides preferred elevation of the ski pylon for wakeboarders and advanced skiers.\*

\*Please follow all safety rules when towing watersports equipment. Do not overload ski tow bar or Waterski/wakeboard tower.

# WINDJAMMER RC TROPIC

A Bestseller FOR YEARS.

Windjammer RC is the more affordable entertainment boat. Its plush bow seating not only offers a nice place to sit and relax, it also serves as a fishing station with many fishing features including a livewell and rod holders.

The affordable, durable and feature-packed Avalon Tropic has been a favorite for thousands of families! Enjoy lounge arms, soft plush furnishings, a CD stereo, built-in dock lights and a luxurious Captain's chair all mounted on heavy-duty construction with 16" on-center crossbeams and full riser connectors. It's built to create memories for many years to come.

## A SERIES

EVEN THOUGH CATALINA IS AVALON'S Most Affordable

full size model, it sure doesn't look like it. A great way to start boating with high quality and less investment, the Avalon Catalina won't disappoint. Catalina is built with the same quality that goes into every Avalon. Solid structure, plush Matrix 50 seating, CD stereo and gauges provide the right amount of features for years of fun on the water.

CC Fish-N-Fun brings four-point fishing to any budget. Enjoy a livewell and rod holders along with lots of storage in this core fishing model that has plenty of room and fishing power without all the frills.

# THE CERTIFIED ADVANTAGE

The NMMA Certified label on an Avalon Pontoon boat lets you know it was built to meet and often exceed, the industry's strictest quality and safety standards for critical components such as electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. According to U.S. Coast Guard statistics NMMA Certified boats have been shown to be safer than non-certified boats.

## MATRIX 50

*Tested Strongest*

Avalon's exclusive MATRIX 50 heavy duty 50 gauge marine seat coverings with a 24% substructure is tested strongest against tears, punctures and stains.

Dimensions, capacities, ratings and additional specifications plus complete warranty and service information are available from your Avalon dealer. Product illustrations and data within this catalog are based upon information available at the time of publication. Avalon reserves the right to make changes without notice or obligation. Ask your local Avalon dealer for the most current product specifications prior to purchase. Some of the equipment shown separately or on products illustrated in this catalog may be optional at extra cost. All Avalon boats meet or exceed the standards established by the ABYC and USCG flotation, fuel systems, ventilation, electrical and safety.
