Tahoe

PONTOON BOATS

LUXURY & STRENGTH.

Our total commitment to making the finest pontoon boats in the world has brought you the exciting Tahoe Pontoons. These luxurious boats are a beautiful composition of the finest elements known to pontoon boating, along with over 40 years of pontoon boat manufacturing experience. The finest construction, the most luxurious designs and the largest group of unique standard features create a distinctly different and clearly superior pontoon boat that will exceed your expectations.

Tahoe is a vertically integrated builder. We manufacture the pontoons, framing, furniture, covers and more right in our own production facility using the latest computer driven equipment such as our Water Jet cutter, Gerber fabric cutter, Tiger saws and the latest in welding technology. As a result we are able to achieve and control the highest degree of quality.

Our number one investment, however, is our people. Tahoe's team of highly experienced welders, furniture makers and assemblers descend from generations of Midwestern craftsmen that have been instrumental in the building of America. Our headquarters based customer service people will make sure your experience is exceptional.

Tahoe is rated as having one of the lowest incidents of warranty claims in the industry and has also won the 2008, 2009, 2010 and 2011 NMMA CSI Award for outstanding customer service.

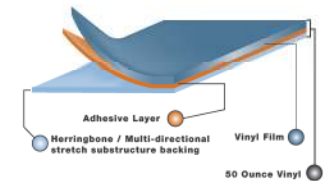

TAHOE PONTOONS OFFERS

MATRIX 50
Tested Strongest

- Tahoe's exclusive MATRIX 50 heavy duty 50 ounce marine seat covering with a 24% substructure is tested strongest against tears, punctures and stains.
- New Herringbone multi-directional stretch backing promotes quicker recovery.
- Greater stitch strength.

Exclusive! Aluminum seat frames and kick panels

Clearly superior. Lifetime warranty. Aluminum seat frames are stronger,

have extra large compartments for maximum storage capacity and have "Flo thru™" ventilation from the outside. "Flo thru™" allows your equipment to dry out, even while the cover is on and keeps the entire compartment drier so mildew or fungus is less likely to develop. Aluminum frames won't crack or hold water like plastic, either!

Tahoe PONTON BOATS

CONSTRUCTION

Five year Bow to Stern Limited Warranty PLUS Limited Lifetime flooring, pontoon weld and seat frame warranty.

CONSTRUCTION

THESE EXCLUSIVE HEAVY DUTY CONSTRUCTION FEATURES

Heavy duty nose cone with our industry-first integrated nose cone splash fins!

The absolute strongest in the industry. The .100" thickness and one-piece construction makes it virtually impossible to break off a splash fin. The double wrapped leading edge provides maximum impact protection.

Stronger! Double full pontoon connectors

Most models feature full riser pontoon connections inside and outside. Unlike our competitor's "small but skirted" riser connectors. Full risers provide continuous strength along the entire pontoon.

Exclusive! Deco Series side keel protection

Special welded keels protect against damage from side impact. They also provide better performance as they limit the flow of water around the pontoon.

Interior drain

Tahoe now exclusively has a drain in the corner of the rear bench where water that would collect from rain during storage is expelled through a drain channel and off the boat. This significantly reduces the potential for stains that develop in the corners over time.

Double vented gas fill

Only Tahoe has solved the issue of fuel fill splash back and slowness. Tahoe's exclusive double fuel vent allows pressure to escape so you can fill quickly with almost no splash back.

Reflective safety striping

Tahoe adds an additional level of night safety with striping that can be seen from a distance when exposed to light.

Industry's strongest double bolted motor pod assembly

.190" thickness with integrated splash fins. 2" thick aluminum sheathed transom is fully welded. The entire pod is double bolted with at least 16 3/8" bolts and supported by more

heavy-duty "C" channels crossbeams than any other pontoon boat.

Superior quality pontoon tube

.090" thickness H5052 marine aluminum alloy. Multi-baffled near each weld for maximum strength and air lock. Hand-welded to rigid standards.

The best crossbeam and deck construction

Tahoe "Deco" Series pontoon boats feature the latest in heavy-duty hull construction. 3" high, extreme thickness "C" channel crossbeams are bolted to the full riser with heavy-duty stainless bolts, nuts and washers. Then 3/4", pressure injected, lifetime

guaranteed flooring is bolted to the crossbeams using superior grade stainless steel bolts secured permanently with stainless nylock lock nuts and washers.

Strongest bow eye

Our standard equipment stainless bow eye is connected across three crossbeams with a 1/4" aluminum reinforcement strap. Excellent strength for haul-out.

Wall joints

Wall joints welded on all four sides for extra strength.

STANDARD FEATURES

25' Model – Commander Fiberglass Helm Stand Including:

- Deco design side door with storage and easy fuse access (n/a on Admiral stand)
- Level 5 dash package – high profile automotive style vinyl wrapped dash with woodgrain panels, lighted stainless toggle switches and windshield

WAVEGLIDER™ HIGH PERFORMANCE PACKAGES

**WAVEGLIDER™ HIGH PERFORMANCE SYSTEM
PROVEN PERFORMANCE
AND DURABILITY!**

Tahoe has tested our High Performance System on trips from Baltimore to Key West, across Lake Michigan and across the ocean from Ft. Lauderdale to

Bimini in the Bahamas, and Key West to the Dry Tortugas. So you can be assured of one tough, high performance boat. So go ahead and turn your boat into the fast planing sport boat you want. It will be a blast to drive, a great all around family boat and perfect for pulling skiers, tubes and wakeboards.*

Waveglider™ High Performance System – 23" or 25" diameter triple pontoons, high performance lifting strakes, Sea Star hydraulic steering and 42 gallon fuel tank for center pontoon.

Waveglider™ with aluminum waveshield

**WAVEGLIDER™
WATERSPORTS PACKAGE**

Waveglider™ Watersports package includes Waveglider™ High Performance System – plus: ski tow bar and aluminum waveshield.

WAVEGLIDER™ 5X7 TURNING PACKAGE

Take it to the next level by equipping your craft with the Tahoe Waveglider™ 5 X 7 High Performance Turning Package. For O/B models it includes the Waveglider™ Watersports package with 25" outside pontoons PLUS an upgrade to a 27" diameter Waveglider™ center pontoon and electric power assist steering for sharper turns! Just add a 27" center pontoon on an I/O to go 5 X 7!

Note - 5X7 Package is not available on Funship models or any model with a walk on sunroof.

WAVEGLIDER HIGH PERFORMANCE

INBOARD/OUTBOARD

DECO SERIES ONLY

I/O Mercruiser – Deco Series only includes: standard 350 MAG MPI 300 HP Sterndrive with Bravo III outdrive, twin stainless steel propellers, Corsa Captain's choice exhaust, Waveglider™ High Performance System 25" dia. triple pontoons, high performance lifting strakes, Sea Star hydraulic steering, and 42 gallon fuel tank for center pontoon, power assist steering, ski tow bar I/O, bilge pump, additional oil and temp gauge, exhaust blower and aluminum waveshield.

Optional Rear Swim Platform

Corsa Through Hull Exhaust

Tahoe

Power Assist Steering

Aluminum Waveshield

Some models shown with optional equipment.

Tahoe PONTON BOATS

WATERSPORT OPTIONS

BLACK FIRE GRAPHIC PACKAGE

PERFORMANCE OPTIONS

Rough Water Package

(factory installed only for Waveglider™ and 5 X 7) – suggested when boat is going to be consistently exposed to very rough water. Adds extra welding and extreme duty riser components

Aluminum Waveshield

(factory installed only) – prevents water from hitting crossbeams and under side of deck while underway

WATERSPORTS OPTIONS

Ski Tow Bar – allows convenient towing for skiers and tubes

Waterski/Wakeboard Tower – 8.5' wide only (Includes SS Bimini top) provides preferred elevation of the ski pylon for wakeboarders and advanced skiers.*

TOWER OPTIONS

- High power speakers with microphone
- Spotlight
- Tower racks (four pieces – two sides)

High performance options are available factory installed only!

In Floor Storage Compartment – factory installed only in center pontoon models

Power Assist Steering – Add power assist steering to give your boat even better handling and turning capability – requires upgrade to Sea Star Hydraulic steering

*Please follow all safety rules when towing watersports equipment. Do not overload ski tow bar or Waterski/wakeboard tower.

Tahoe
PONTOON BOATS

THE CERTIFIED ADVANTAGE

The NMMA Certified label on a Tahoe Pontoon boat lets you know it was built to meet and often exceed, the industry's strictest quality and safety standards for critical components such as electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. According to U.S. Coast Guard statistics NMMA Certified boats have been shown to be safer than non-certified boats.

NMMA[®]
CERTIFIED ✓
 using **ABYC** standards

MATRIX 50

Tested Strongest

Tahoe's exclusive MATRIX 50 heavy duty 50 ounce marine seat coverings with a 24% substructure is tested strongest against tears, punctures and stains.

Dimensions, capacities, ratings and additional specifications plus complete warranty and service information are available from your Tahoe dealer. Product illustrations and data within this catalog are based upon information available at the time of publication. Tahoe reserves the right to make changes without notice or obligation. Ask your local Tahoe dealer for the most current product specifications prior to purchase. Some of the equipment shown separately or on products illustrated in this catalog may be optional at extra cost. All Tahoe boats meet or exceed the standards established by the ABYC and USCG flotation, fuel systems, ventilation, electrical and safety.
