

Avalon

LUXURY PONTOON BOATS

2015

You won't have to deal with mildew or fungus with Avalon's exclusive Flo Thru ventilation™ Seating. Unlike plastic seating, our exclusive aluminum seat frames have external and internal air flow that dries out the seat compartments while moving and even when the boat is stored!

Our exclusive aluminum seat frames have 30 percent more storage than conventional plastic seat frames. Try putting all this in plastic seat storage!

Heavy duty, stylishly designed, seat frame cladding eliminates fabric covering and provides a vented, beautiful accent to Avalon's Deco designs.

Avalon's exclusive Matrix 50 heavy-duty 50 gauge marine seat covering with a 24 percent substructure is tested strongest against tears and punctures.

- New Herringbone multi-directional stretch backing promotes quicker recovery
- Greater stitch strength
- Permaguard stain protection

Avalon's Unique suspension seat cushions provide soft comfortable cushions that don't bottom out on a hard support surface.

Heavy duty double bolted hat channel – Double the surface, double the strength, one wide surface for stronger flooring connection.

Plug N Play electrical connections

Solid frame includes Double solid full risers, double bolted motor pod all connected with double bolted Hat channel crossbeams plus bow and stern .250 U bars.

Heavy duty Deck corner protection

Strongest bow eye connected to 3 crossbeams

One Piece nose cone has heavy duty double wrapped, double thickness .200 leading edge.

Integrated nose cone splash fins cannot be broken off! Fins have welded edge guard.

Exclusive side protector keel – protects pontoon from side impact at docks, provides a spray diversion, and makes pontoon structure stronger.

DECOSPORT WAKEBOARD TOWER – High mount pylon, heavy duty Deco style frame.
Options: 360° rotating Tower Speakers • Wakeboard Rack • High speed top canvas

One Piece Stainless Steel Ski Tow Bar

In-Floor Ski Storage

Express Center Pontoon with High Performance Fins and Waveshield – for Excellent wave and weight handling, more speed, & dry ride

Turning package for Compact models – triple pontoons with internal fins for excellent lift and radical turns.

WAVEGLIDER HIGH PERFORMANCE PACKAGE – When the water gets rough nothing has your back like this water shredding performance pontoon with 6 Waveglider lifting fins and integrated heavy duty motor pod. Whether you want to go faster, enjoy extreme watersports, or beat the storm home, the high lift and controlled turns of the Waveglider package will have you comfortably gliding over waves like they weren't even there.

HIGH PERFORMANCE WAVEGLIDER LIFTING FINS – The only pontoon lifting fin specifically designed for higher lift and more speed. The cupped designed traps the water's energy to create extreme lift as the water channels to the rear and disperses in a clean wake.

INBOARD / OUTBOARD – Avalon offers the power and performance of many different V-8 and V-6 motor choices. I/O models come standard with power steering, Waveshield, built in center 45 gallon fuel tank,ski tow bar, I/O gauge panel. I/O models are also available with Twin propeller gearcase and Corsa through hull exhaust.

THE CERTIFIED ADVANTAGE

The NMMA Certified label on an Avalon Pontoon boat lets you know it was built to meet, and often exceed, the industry's strictest quality and safety standards for critical components such as electrical systems, powering, flotation, fuel systems, and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. According to U.S. Coast Guard statistics NMMA Certified boats have been shown to be safer than non-certified boats.

Avalon's exclusive MATRIX 50 heavy-duty 50 gauge marine seat coverings with a 24% substructure is tested strongest against tears, punctures and stains.
