

Avalon

A

LUXURY PONTOON BOATS

2016

You won't have to deal with mildew or fungus with Avalon's exclusive Flo Thru ventilation™ Seating. Unlike plastic seating, our exclusive aluminum seat frames have external and internal air flow that dries out the seat compartments while moving and even when the boat is stored!

Our exclusive aluminum seat frames have 30 percent more storage than conventional plastic seat frames. Try putting all this in plastic seat storage!

Heavy duty, stylishly designed, seat frame cladding eliminates fabric covering and provides a vented, beautiful accent to Avalon's Deco designs.

Avalon's Unique suspension seat cushions provide soft comfortable cushions that don't bottom out on a hard support surface.

Avalon's exclusive Matrix 50 heavy-duty 50 gauge marine seat covering with a 24 percent substructure is tested strongest against tears and punctures.

- New Herringbone multi-directional stretch backing promotes quicker recovery
- Greater stitch strength
- Permaguard stain protection

Heavy duty double bolted hat channel – Double the surface, double the strength, one wide surface for stronger flooring connection.

Plug N Play electrical connections

Heavy duty Deck corner protection

Strongest bow eye connected to 3 crossbeams

One Piece nose cone has heavy duty double wrapped, double thickness .200 leading edge.

Integrated nose cone splash fins cannot be broken off! Fins have welded edge guard.

Exclusive side protector keel – protects pontoon from side impact at docks, provides a spray diversion, and makes pontoon structure stronger.

Solid frame includes Double solid full risers, double bolted motor pod all connected with double bolted Hat channel crossbeams plus bow and stern .250 U bars.

THE CERTIFIED ADVANTAGE

The NMMA Certified label on an Avalon Pontoon boat lets you know it was built to meet, and often exceed, the industry's strictest quality and safety standards for critical components such as electrical systems, powering, flotation, fuel systems, and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. According to U.S. Coast Guard statistics NMMA Certified boats have been shown to be safer than non-certified boats.

Avalon's exclusive MATRIX 50 heavy-duty 50 gauge marine seat coverings with a 24% substructure is tested strongest against tears, punctures and stains.

Dimensions, capacities, ratings and additional specifications plus complete warranty and service information are available from your Avalon dealer. Product illustrations and data within this catalog are based upon information available at the time of publication. Avalon reserves the right to make changes without notice or obligation. Ask your local Avalon dealer for the most current product specifications prior to purchase. Some of the equipment shown separately or on products illustrated in this catalog may be optional at extra cost. All Avalon boats meet or exceed the standards established by the ABYC and USCG flotation, fuel systems, ventilation, electrical and safety.

Avalon's superior innovation and customer satisfaction is recognized by the NMMA CSI AWARD for 2008 through 2015 and the Marine Industry 2012 Innovation Award!
